Flag Football Skills

Divisions: Junior (8-21)  Senior (22+)

Entries: Entry score for the athlete should be their best effort, time or score. Score is determined by adding three skills scores together.

Competition: Three events make up Flag Football Skills. Catching, Running and Throwing
Event #1: Catching

• Purpose is to measure an athlete’s catching ability
• Equipment/Supplies: one tape measure, five footballs, two cones, lawn paint, one clipboard, scoresheet, and pencil
• Description
  • Athlete stands between and behind two cones, five yards from an official. Cones should be eight feet apart. The official throws the ball to the athlete alternating throws between the cones
  • Athlete will catch the ball between the cones
• Athlete is thrown five balls
• Scoring
  • Five points for a caught ball
  • One point for a dropped ball
  • Zero points for a missed attempt
• Maximum score is 25
• Example: Athlete catches three passes, drops one pass, and misses one pass
  • Score = 5 + 5 + 5 + 1 + 0 = 16
Event #2: Running

• Purpose is to measure an athlete’s field-running ability
• Equipment: One stopwatch, one clipboard, scoresheet, pencil, one football, and eight cones
• Description
  ▪ Two sets of cones are staggered every five yards for 15 total yards
  ▪ Athlete is timed as he/she leaves the first set of cones, runs through all the staggered cones, crossing back and forth through the last set of cones
  ▪ Five seconds are deducted from missed cones or dropped ball
• Scoring
  ▪ Start with 60. Subtract the amount of time it took the athlete to run through all the cones
  ▪ Athlete is given two trials, with the best score recorded
• Example: Athlete’s time to run through all the cones is 38 seconds with no penalties
  ▪ Score = 60 – 38 = 22
Event #3: Throwing

- Purpose is to measure an athlete’s ability in throwing for distance & accuracy
- Equipment: two tape measures, two footballs, three marking cones, one clipboard, scoresheet, and pencil
- Description
  - 60-meter throwing line is setup
  - Athlete throws the football as far and as straight as possible down the throwing line without stepping over the restraining line
  - Athlete can take one or more steps towards the restraining line
  - If the athlete crosses the restraining line, he/she can have a repeat throw
- Scoring
  - Mark the spot where the ball lands. Record the measurement on the throwing line that is perpendicular to the spot where the ball landed. Measure the distance from the throwing line to the spot where the ball landed. Subtract this distance in meters from the measurement on the throwing line. This is the athlete’s score. If the score falls between meters, then the score is rounded down
  - Athlete is given two trials with the best score recorded
  - Example: Athlete’s ball lands perpendicular to the 25.40 meter point on the measuring tape and is 6.50 meters out
    - Score = 25 – 6 = 19

Athletes total score is 57 (16 + 22 + 19 = 57)
